Monday -

Dear Dami -

It was indeed a great delight for me to be present the other evening when you were so singularly honored by the Spanish government.

Your contribution to the musical world is far greater than just the many excellent scores you have composed. You have brought increased stature, dignity and importance to all members of your craft.

Boycheck, I am indeed
proud of you — and I wish
you many good years of
health and creativity.

Affectionately,
Mack

P.S. I was delighted to see
that Mrs. Fromlan is
regaining her health.
